Summary

I have added software development to my skill set after being a hobbyist for years, and have completed Springboard's Software Engineering Career Track. I am an experienced Information Technology specialist and bring a critical eye to the development space. Bootcamp and freelance projects have been great opportunities to break into the field. I'm seeking remote employment opportunities to develop practical, ethical applications as part of a team.

Languages: HTML, JavaScript, Python, CSS

Platforms: MongoDB Atlas, Git, Heroku, Vercel

Frameworks/Libraries: React, NodeJS, Express, Next.js, jQuery, Bootstrap, MaterialUI, Flask, Jinja
